## HOW TO SET THE PERSONAL SECRETE CODE?
After batteries installation, the red LED starts to flash. Now, you can start to key in the 4 digit secret codes (example:1122) from the BIKE ALARM and you will hear several beeps and the LED stop flashing after 5 seconds. Now, your secret code has set up successfully!

## HOW TO ARM/ DISARM THE BIKE ALARM?
- Press "F" button twice to ARM the BIKE ALARM. You will hear several beeps and red LED will flash
- Now, the LED will flash every 5 seconds to indicate the BIKE ALARM is ARMED.
- Loud warning signals will be heard if BIKE ALARM detects unauthorized movement.
- The BIKE ALARM will be triggered if a continuous movement is detected within 2 seconds after warming signals.
- 3 seconds after alarm triggering, a piercing and loud sound will go off.
- Press "F" and 4 digit secret codes to DISARM BIKE ALARM

## HOW TO CHANGE SECRET CODE?
- Press "F" and 4 digit codes. 4 short beeps will be heard and LED flashes. Now, you can press the new 4 digit secrete codes.
- 4 long beeps will be heard, LED stop flashing. Now, the new secreted codes are set successfully! The new secret code will not be setting if the new codes cannot be completed within 5 seconds.

## HOW TO SET ALARM SOUND?
- Press "1" "F" "1" to set alarm sound to SIREN
- Press "1" "F" "2" to set alarm sound to BELL
- Press "1" "F" "3" to set alarm sound to AMBULANCE
- A short demonstration sound will be heard after every selection
